CERTIFIED COLLEGE FINANCIAL CONSULTANT (CCFC) DESIGNATION PROGRAM

The Premiere College and Student Loan Planning Designation and Education Program for Financial Professionals
HIGHER ED AND THE PANDEMIC

As a result of rising costs, systemic issues, and the aftermath of COVID-19, planning for higher education has never been more challenging for families.

Parents and students are seeking guidance from qualified financial professionals, now more than ever, on how to properly plan for K-12, undergraduate, and graduate school costs.

How much should I save? Where should I save? How do I properly fill out the financial aid forms? A CCFC is prepared to answer these questions and more.

STUDENT LOAN CRISIS

With total student loan debt approaching $1.8 trillion dollars and relatively few eligible borrowers receiving forgiveness under the public service loan forgiveness program (PSLF), current and prospective student loan borrowers need guidance in order to effectively manage their debt while planning for other important financial goals such as purchasing a home and saving for retirement.

Should I refinance or consolidate my loans? Which repayment plan should I choose? A CCFC is prepared to answer these questions and more.

BRIDGING THE GAP

While guidance counselors have traditionally focused on the admissions facet of the college planning process, the advice provided by financial professionals has primarily been limited to recommending the use of 529 College Savings Plans.

The CCFC Designation and education program is designed to educate financial professionals so they can advise clients at every stage in the college planning process, whether it be working with young couples to develop a funding strategy, families with high-school aged children to assist in the filing of financial aid forms, or recent graduates to develop an effective student loan repayment strategy.

$30 TRILLION

Test Drive the Education Course Here!
The final interview examination is conducted via video conference with a live recording function. The candidate is tested on their knowledge and ability to respond to seven questions including four client case studies that correspond to topics from any of the five lesson modules covered in the education course. The instructor will confirm that the candidate's visual appearance matches that of the headshot that was uploaded with the initial application form for identity verification purposes. Satisfactory responses to three out of the four client case studies will result in the candidate passing the exam and he/she will have then met the requirements to use the CCFC marks publicly.
